

# WORLD EXPO 2025 NEWS

## 「KIZUNA –絆– News letter」

Issued June 5, 2024 Vol.7

The Expo is not just a project for Osaka and Kansai; it's a national event involving the whole of Japan.

The Expo's theme, "life," is a profound one. The Expo also serves as an opportunity to unite our diverse world. With only around 300 days to go until its opening, we are feeling more determined than ever to make it a success. We will exert our utmost efforts to make it an event that can present the world with hope for the future.

TOKURA Masakazu,  
Chairman of Board, Keidanren

The attractions of an Expo are to learn about today's world, talk and interact with people from around the globe, and build a better future together. We will devote our best efforts to ensure that visitors can enjoy a once-in-a-lifetime experience through the Grand Roof (Ring), one of the world's largest wooden structures, pavilions and National Days of more than 150 countries, a diverse range of events and gastronomic experiences, beautiful scenery unique to a maritime Expo, and much more.

ISHIGE Hiroyuki,  
Secretary General,  
Japan Association for the 2025  
World Exposition

- May 28; The Association launched the Co-Design Challenge 2024, the second phase of a design project that will showcase innovative, community-based products and services at the Expo. A total of 11 projects were selected from 36 proposals. The projects will receive advice from designated veteran designers in product development with the Expo as the target. Factory tours are also being planned.

(Examples of selected projects)

- Furniture made from debris from space rockets
- Rubbish bins made from unused wood and bamboo
- Sign stands made by collecting and refining waste materials from natural disasters
- Bench made from discarded scallop shells
- Display stand made of cardboard waste paper
- Stools made of Shigaraki ceramics, aged wooden building materials and offcuts

Presentation in Suminoe Ward, Osaka

Space Tank Bench using space rocket waste

- May 30; The Association released images for the 20 facilities specially designed by young architects, which include rest areas and toilets, amongst others. Expos are generally seen as launching pads for architects, as was the case in Expo 1970 Osaka, and these facilities are expected to similarly serve as opportunities for the young architects to showcase their works globally.
